Cleveland-Cliffs Inc published a News Release on April 12, 2002 as follows:

Cliffs Announces Long-Term Agreement to Supply Iron Ore Pellets and Investment in International Steel Group, Inc.

CLEVELAND, OH – April 12, 2002 – Cleveland-Cliffs Inc (NYSE:CLF) today announced that it has entered into a long-term agreement to supply iron ore pellets to International Steel Group, Inc. (ISG), which announced today that it has completed the acquisition of the principal steel making and finishing assets of LTV Steel Corporation. Under the agreement, Cliffs will be the sole supplier of pellets purchased by ISG for a 15-year period beginning in 2002. Cliffs also announced that it has invested \$13 million in ISG common stock, representing approximately 7 percent of ISG’s equity.

Pellet sales to ISG in 2002 are estimated to be between 1.5 and 2 million tons, depending upon ISG’s actual production scale-up. Sales over the remainder of the contract term will depend on the pellet requirements of ISG. ISG has announced that it plans to produce over 4.5 million tons of flat rolled steel annually. At this production level, the annual pellet requirements are expected to be about 5 million tons. Pellet sales over the 15-year contract term could total more than 70 million tons, or over \$2 billion in revenue. Pellets sold under this contract will come from Cliffs-managed mines in Michigan and Minnesota.

John S. Brinzo, Cliffs’ Chairman and Chief Executive Officer, said, “We are pleased to announce this sales agreement with ISG. Our contract with ISG should enable the Company to operate its production capacity at close to capacity levels beginning in 2003. We look forward to our partnership with this important new customer.”

Cleveland-Cliffs is the largest supplier of iron ore products to the North American steel industry and is developing a significant ferrous metallics business. Subsidiaries of the Company manage and operate interests in five iron ore mines in Michigan, Minnesota and Eastern Canada. Cliffs has a major iron ore reserve position in the United States and is a substantial iron ore merchant. References in this news release to “Cliffs” and “Company” include subsidiaries and affiliates as appropriate in the context.
